Bernard Clarke

employed as an NIHR Academic Clinical Lecturer in Manchester following which I completed my BCIS fellowship in Auckland, New Zealand. During my training years I was elected as the deanery and BJCA representative for North west and Mersey and an affiliate council member on the BACPR council. This has given me the experience of representing my colleagues across the corresponding regions and nationally. I have worked in non-surgical centres as a consultant in the north west of England, Northland New Zealand and now in Sussex. I would appreciate the opportunity to represent you at the BCS council.
